Portfolio Creator

A Simple and Intuitive Portfolio Website Creator

If anyone looking to showcase their talents and accomplishments but lacks coding experience. Introducing Portfolio Creator, a user-friendly PHP/MySQLi project that allows you to effortlessly create your stunning portfolio website. With a powerful Admin Panel, you can easily modify the website's content without any technical hassle.

Dynamic and Manageable Content:
Portfolio Creator empowers you to showcase your personal or company information, educational background, work experiences, and completed projects dynamically. The website's content can be easily managed through the Admin Panel, making updates and changes a breeze. Say goodbye to the complexities of coding, as this project simplifies the entire process for you.

Sleek and Professional Design:
To enhance the visual appeal of your portfolio, we have carefully integrated a free template for the website's design. The Admin Panel, powered by the popular AdminLTE Template, ensures an attractive and efficient interface for managing your website's contents.

Tech Stack:
Built using PHP and MySQL Database, Portfolio Creator leverages the power of HTML, CSS, Javascript (jQuery and Ajax), and Bootstrap to offer a seamless and responsive user experience. This project presents a perfect opportunity to develop your PHP web application skills while achieving your portfolio goals.

Key Features of the Admin Panel:
- **Login/Logout:** Secure access to the Admin Panel, ensuring only authorized users can manage the website's content.
- **Dashboard:** A centralized hub for monitoring and controlling the entire system efficiently.
- **Update About Content:** Keep your audience updated with the latest information about yourself or your company.
- **Manage Educational Attainment Details:** Showcase your educational achievements with ease.
- **Manage Work Experience Details:** Highlight your work experience and accomplishments for potential employers or clients.
- **Manage Projects Completed:** Proudly display your completed projects and their details.
- **Manage Contacts:** Stay connected with your audience by managing your contact information.
